Duchy of Cornwall Estate

Rural Estate Surveyor

Job Advert

Duchy of Cornwall Estate

Rural Surveyor – Restormel, Cornwall.

Permanent - Full time - 35 hours

Salary £30,000-£35,000

Car Allowance £5,500

An exciting vacancy has arisen for a progressive and forward thinking, qualified Rural Surveyor to deliver a diverse range of front line estate management including landlord and tenant matters, marine & minerals management, valuation, rent reviews, agricultural infrastructure planning & delivery and working to enhance the Estate’s natural capital assets.

Managing an extensive rural portfolio in Cornwall you will join our team with an excellent understanding of agriculture and the contemporary issues facing rural estates, being able to deploy this knowledge to great effect in order to meet the Duchy’s financial and non-pecuniary objectives. You will become an informed advocate for the adoption of management practices that ensure the Duchy enhances its natural capital and achieves a net zero carbon position at the earliest practical date.

The Duchy’s Natural Capital Project sees our in-house ecologist working closely with our rural surveyors to evaluate, plan and deliver contemporary natural capital plans for each Duchy Farm. You will be involved in all stages of this process and will need to be able to quantify the relationships between agricultural and environmental outcomes, in order to evaluate and negotiate the most advantageous proposals with the Duchy’s tenants.

You will be commercially minded, whilst having an empathy with our vital goal of securing sustainable management through a partnership approach with our tenants; a creative thinker open to fresh points of view and quick to build solid relationships.

We would also draw your specific attention to the Duchy’s integrated annual report.

Closing date 24th March 2021

Due to the uncertainty of any future COVID 19 restrictions or guidance the shortlisting process, interviews and time frames may be subject to change. As much notice as possible will be given to minimise any inconvenience.
